SPECIAL PRICES for AUTUMN PLANTING

Catalog 129

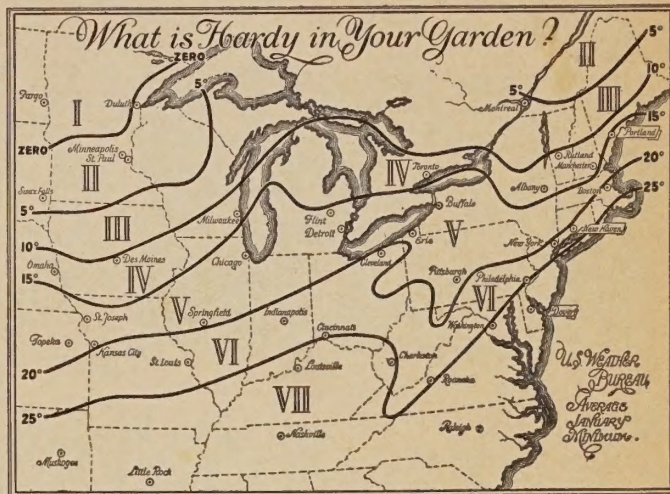

Autumn 1941

SAFE FALL PLANTING

It is an enormous help to a tree or shrub to be in the ground all winter ready for an early spring start—and so easy to give that help by watching a few simple points:

1. New plantings need watering for autumn root-growth. Water freely up until ground freezes.
2. Time of planting is important: Evergreens best from now to early October (they need late Fall for root growth)—deciduous plants from October to frost—(after leaves turn color).
3. A very few plants are best moved only in Spring when sap is running. Fall planting of these can be done:—(a) By digging with an earth ball. (b) By using small sizes only. (Birch and Magnolia are typical of this small group.)
4. Very small evergreen seedlings are likely to frost-heave. Easily overcome:—Simply strew a thin mulch of salt hay in the beds.

★ means items so marked are light, young stock—healthy but not yet shapely.

There is a northern limit for every plant, beyond which it cannot live. For practical use the map above divides the country

into Zones. Each plant description in this List has a related Zone limit. Look up your garden on the map and you can select hardy material.

PACKING COSTS — Free if cash accompanies order, except stock dug with a ball of earth. Otherwise, packing is charged at cost (usually 10% of cost of stock). Balled, heavy evergreens: we will estimate packing costs in advance if you wish.

LIMITED RESPONSIBILITY — We disclaim responsibility for any reason in amounts greater than invoiced.

PRICES—Net at the nursery. Transportation to be added at actual cost. Usually 5 sold at rate per 10, 50 at 100 rate.

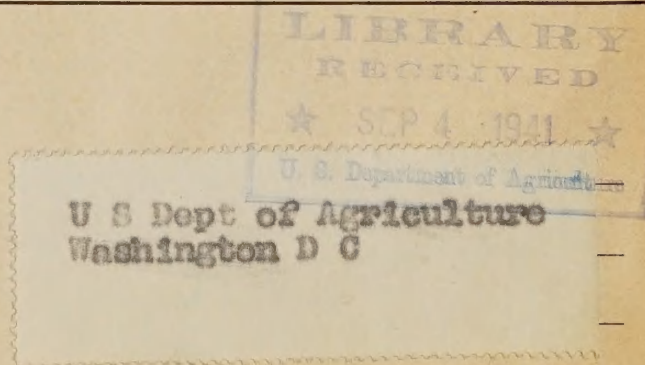

CLAIMS for errors, shortages or other causes must be made within 10 days.

FREIGHT AND EXPRESS charges are extra (except in a few prepaid Special Offers). They are paid by you to the Railroad or Expressman. We will estimate these costs in advance if you wish.

KELSEY NURSERY SERVICE

— Established 1879 —

50 Church St., New York, N. Y.

TULIPS

{ Order now. Plant
Oct.-Nov. 5 inches deep }

We are offering two sizes between 4 and 5 inches in circumference:—(1) The largest available in quantity, 11 to 12 centimetres full measure. (2) The next size lower—the smallest good flowering bulb—10 to 11 centimetres.

Not less than 50 of one kind.....	10 to 11 centimetres (100) \$6.00	11 to 12 centimetres (100) \$7.00
Not less than 10 of one kind.....	7.00	8.50

DARWIN TULIPS

Extra strong vigorous stems and large showy blooms. The showiest tulips.

SPECIAL MIXTURE—10-11 cm. bulbs all colors, 100 for \$4.95 100 minimum.

Baronne De La Tonnaye—Bright rose with blush margins.

Clara Butt—Clear pink, flushed salmon. Inside much deeper. Blue base.

Europe—Scarlet red. Good size.

Giant—Reddish purple, shaded violet. White base. Enormous flower, tall.

Glow—Glowing crimson.

Harry Veitch—Red-brown, blue base.

King Harold—Deep ox-blood red; purple-black base.

Mrs. Krelage—Lilac rose, paler edges.

Mrs. Potter Palmer—Glowing purple.

Phillippe De Comines—Dark purple.

Princess Elizabeth—Lovely, clear, deep pink with white base.

Professor Rauwenhoff — Large cherry-red, scarlet inside. Bright blue base.

Rev. H. Ewbank—Shaded mauve.

The Sultan—Dark maroon.

William Copeland—Lilac rose.

William Pitt—Dark crimson; white base starred blue.

SINGLE EARLY TULIPS

Bloom two weeks before the Darwins. Gay, dainty and brilliant.

Artus—Scarlet, yellow center.

Brilliant Star—Large crimson-scarlet.

Calypso—Large pale primrose-yellow.

Chrysolora—Large golden-yellow.

Fred Moore—Deep, ruddy apricot, edged orange.

Primrose Queen—Pale yellow with thin red edge.

Prosperity—Bright, deep pink.

White Swan—Large pure white.

TRIUMPH TULIPS

Bloom between earlies and Darwins.

Algiba—Purple mauve.

U. S. A.—Rosy red, orange edge.

BREEDER TULIPS

Bronze Queen—Buff within, center bright lemon; outside purplish-fawn.

Prince of Orange—Terra-cotta, orange edge. Base yellow streaked green.

WHAT IS THE DIFFERENCE
Between Top-size bulbs and cheap inferior sizes?—See for yourself. The larger the bulb, the larger the flower. This is true of most Bulbous flowers, as all experts know.

Photo shows two Tulips of same variety — Note the great difference in size.

COTTAGE TULIPS

Long slender sturdy stems. Smaller than most Darwins, but last year after year in the flower border.

SPECIAL MIXTURE—10-11 cm. bulbs all colors, 100 for \$4.95 100 minimum.

Argo—Deep gold, pencilled orange.

Bouton D'Or—Showy yellow, striking black anthers.

Brightness—Bright scarlet with white center.

Caledonia—Orange-scarlet with black center.

Ellen Wilmott—Soft yellow, fragrant.

Gesneriana Lutea—Pure golden.

Gesneriana Major—Crimson with striking black center.

Golden Crown—Yellow with red line edging petals.

Grenadier—Orange, yellow base.

Inglescombe Pink—Bright salmon-pink with blue base. As tall as most Darwins.

Inglescombe Yellow—Large glossy canary-yellow, tall.

La Merveille—Orange-scarlet. Fragrant.

Red Rocket—Crimson-scarlet. Tall.

NARCISSUS

Culture:—Any sweet garden soil
Plant:—Sept. to Nov. (4" deep)

**You Can
Naturalize
Narcissus**

Narcissus Naturalizing Mixture

The greatest garden value is obtained by not confining Narcissus to the garden at all! Let them run along your driveway, in the meadow, under fences and around and among shrub groups.

However not all varieties will thus take care of themselves. It is important that only the right kinds are in such a mixture. We offer the following very special assortment of all kinds suitable—trumpets and small cups both. These are round-nose bulbs, not double-nose, exactly right for the purpose.

**100 for
\$3.00**

(1000, no less
for \$22.50)

1. TRUMPET "DAFFODILS"

(10) (100)

Strong double-nose bulbs..\$1.20 \$10.00

Christmas Glory—Trumpet and perianth both yellow. Early.

Emperor—Yellow trumpet. primrose perianth.

Empress—Creamy petals; canary-yellow trumpet.

Golden Spur—All yellow. Vigorous. Popular.

Glory of Sassenheim—Golden trumpet on white perianth.

King Alfred—Gold throughout. Large. Vigorous.

2. POETICUS (Small flat crowns. Fragrant)

(10) (100)

Strong double-nose bulbs..\$0.80 \$7.00

Glory of Lisse—Red-rimmed cup on white perianth.

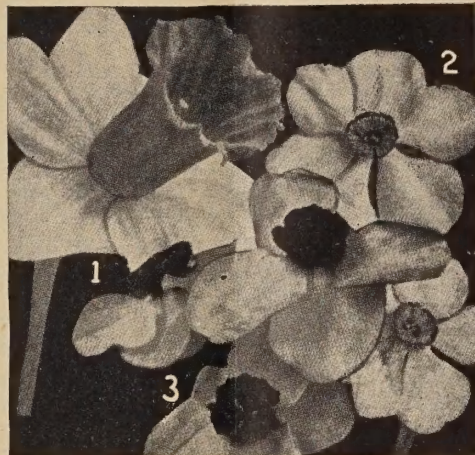

Homer—Red cup on white. Large flower.

Horace—White star-shaped perianth. Cup is yellow, red-rimmed. Free-blooming.

Recurvus (Pheasant's Eye)—Pure white recurving petals. Cup edged scarlet. Sweet scented.

**OUR PRICES ARE FOR
DOUBLE-NOSE BULBS**

Minimum order 10 narcissus bulbs of one kind. 50 at 100 rates.

Short Trumpet Narcissus

(10) (100)

Strong double-nose bulbs..\$0.80 \$7.00

5. INCOMPARABILIS (Medium cup)

Autocrat—All yellow.

Bernardino — Creamy, edges orange stained. Fluted.

Gloria Mundi—All yellow, red stain.

Macebearer—Orange and cream.

Sir Watkin—Extra large yellow cup; primrose petals.

4. BARRI (Short cup)

Albatros—Lemon cup on white perianth.

Blood Orange—Orange cup on lemon-yellow perianth.

Conspicuous—Tall. Perianth yellow. Cup darker, scarlet edged.

Firebrand—Red cup on a creamy perianth.

Seagull—Freeflowering, tall, late. Pure white perianth with yellow cup; red edged.

6. LEEDSI (White with white or primrose)

Evangeline — Starry, white perianth. Lemon crown.

Mrs. Langtry — Primrose crown on creamy perianth.

Queen of the North—Fluted lemon cup on broad white perianth. Substantial flower.

White Lady—Yellow on white.

Spring Crocus

The Dutch Crocus is the showiest of all the really early flowers in Spring. Not too plentiful, but enough for the early orders anyway. Mixtures only, no named kinds because of uncertainty of supply.

	(25)	(100)
Blues and Purples.....	\$2.00	\$7.00
Whites	2.00	7.00
Yellows	2.00	7.00
Striped Kinds	2.00	7.00

Snowdrops—Galanthus

Bloom right after the Crocus. Remain a life-time in faithful bloom.

	(25)
Galanthus Nivalis	\$2.00
(100 or more at 7½ cents each)	

Autumn Colchicum

	(25)
Autumnale Major	\$12.50
Bornmulleri	12.00

OTHER BULBS

Grape Hyacinths—Muscari

Dainty flowers open with the Crocus and the drifts of blue are immensely effective in mass planting.

	(25)	(100)
Armeniacum (Early Giant) ..	\$1.75	\$6.00
Botryoides (Common Blue) ..	1.00	3.00
Heavenly Blue	2.00	7.00

Wood Hyacinths—Scilla

Thrive in bare shady places, under evergreen trees, where few other plants will thrive. Fine naturalizing subjects or in rock gardens.

	(25)	(100)
Campanulata White	\$2.00	\$7.00
Campanulata Blue	1.75	6.50
Nutans (Scots Bluebell)	1.75	6.00
Nutans Alba (White)	2.00	7.00
Siberica (Squill)	2.00	7.00

Lilies for Fall Planting

Here are easy-to-grow kinds for thrill next summer. All are available by or before early November and suitable for autumn planting.

Magnolia (MAGNOLIA)

— <i>conspicua</i> (Yulan) (Denudata)—April 20. White.			
8-10 in.	1.10	10.00	95.00
15-18 in.	1.95	17.50
— <i>halleana stellata</i> (Star Magnolia)—April 10. White.			
10-15 in.	1.50	13.50
15-18 in.	1.95	17.50
— <i>Stellata Waterlily</i> . Fine new double star, pink Magnolia. Bud hardy.			
10-15 in. B&B....	1.75	16.00	150.00
18-24 in. B&B....	4.00	36.00	325.00
— <i>Parviflora</i> (White, fragrant, July).			
15-18 in. B&B....	1.75	16.00	150.00
— <i>Soulang. speciosa</i> (Striped purple).			
2-2½ ft. B&B....	2.75	25.00	225.00

EVERGREENS

Cedrus (TRUE CEDAR)

— <i>Atlantica fastigiata</i> (Sentinel Cedar). Tall green pillar.	(Each)	(10)	(100)
12-15 B&B	\$1.40	\$12.50	\$110.00
15-18 B&B	1.75	16.50	150.00

Picea (SPRUCE)

— <i>Moerheimi</i> (Moerheim's Blue). Zone II. New. Better color than Koster's.			
1-yr. grafts	12.00	85.00	
8 to 10 in.	15.00	120.00	

Taxus (YEW)

— <i>Kelsey's Berrybush Yew</i> .			
12-15 in. B&B....	1.50	13.50	125.00
— <i>Vermuelen's Yew</i>			
15-18 in. B&B....	1.50	13.50	125.00

Tsuga (WEEPING HEMLOCK)

— <i>sargentii</i> (Sargent's Weeping Hemlock). A beautiful spreading mound.			
10-12 in.	1.00	9.50	80.00
12-15 in.	1.50	12.50	110.00

FALL AND WINTER FLOWERING TREES AND SHRUBS

Gay, brilliant colors. Hardy. Plant in September-October.

Abelia grandiflora—Lilac-white now until frost. 18 to 24 inches.

Franklinia Tree—Fragrant white September until frost. 3 to 3½ feet.

Chinese Witch-hazel—Golden show January and February. 2 to 2½ feet.

Above are honest, blooming sizes, but can only guarantee the *Abelia* (now in bloom). All dug B&B, packed f.o.b. Long Island, (weight about 20 pounds).

1 of each (3 plants).....	\$8.00
2 of each.....	\$15.00

YOUNG TREES for

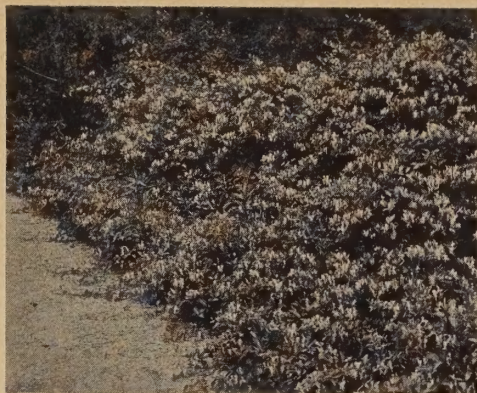

Photo:—Hall's Japanese Honeysuckle used to hold and ornament a bad road embankment. This plant is extremely tolerant and will grow (though not so bushy) even in dense shade. The fragrance of a honeysuckle bank scents the air for hundreds of yards around.

GROUND COVERS PREVENT EROSION

HEDERA BALTICA (Hardy English Ivy). Use as vine or ground cover, in shade.

	(25)	(100)	(1000)
2-in. pots	\$5.00	\$16.50	\$125.00

LONICERA JAPONICA (Honeysuckle)

1 yr. light.....	2.50	16.00
12 to 18 in. X....	2.50	9.00 60.00

PACHYSANDRA TERMINALIS

Tolerant in poor soil and shade.

1 yr. light.....	5.50	45.00
2 yr.	3.00 11.00	85.00

ROSE WICHURIANA

Branches grow quickly, droop and root. Thick-set effect. Best in sun.

18 to 24 in.....	3.50 11.00	80.00
------------------	------------	-------

VINCA MINOR (Myrtle)

Evergreen, in sun or shade.

15-20 stems	6.00	35.00
30-35 stems	3.00 9.00	60.00

Transplants ("X")

Evergreens that have been moved, or have had their roots pruned, form a close compact ball of fibrous roots. To be planted out in the open field in rows.

Seedlings ("S")

Should be planted about four inches apart in beds. Here they are left two years and for the first year, during the heat of the first Summer, should be shaded by a lath screen. In the Autumn, mulch to prevent frost-heaving.

Small Deciduous Trees

Deciduous trees and shrubs "need" pruning back upon planting. With deciduous shrubs cut to the ground upon setting them out. Trees with a single stem: prune back within a few inches of the ground and then a month later go over the planting again and cut away all but one single stem.

THE YEAR AFTER PLANTING, these little Pines were about 1½ feet high, twice transplanted, and cost about 30c each.

TWENTY YEARS LATER the photo taken near the same place shows a young forest. Trees are 25 to 30 feet high. Worth \$50.00 or more each!

For Timber

Spruce and Pines (saw timber)
Black Locust (fence-posts)
Ash and Hickory (handles)
Walnut, Liriodendron, etc., cabinet woods

Xmas Trees

Norway Spruce
White Spruce
Douglas Fir
Balsam Fir
Colorado Spruce

Pulpwood

Norway Spruce
White Spruce
Red Pine
Scots Pine
Poplars

FORESTRY and Lining-out

Kalmia (Mountain Laurel)

latifolia	5.00	8.00	30.00
-----------------	------	------	-------

This special "Young Aristocrat" grade measures 12 to 15 inches with a small ball, weighing one or two pounds only. This stock is not to be compared for a minute with ordinary collected plants. It is on the contrary all carefully dug, the greatest pains being taken to preserve the roots. Carefully packed, it is easily planted and makes a quick start. Shipped from North Carolina, yet express runs only about 6c each (in 100 lots).

(Insert): Kalmia, Size 1, As It Arrives.

(Photo): Size 1 Rhododendron 3 Years After Planting.

SIZE 2: As small as is shapely.

12 to 15 Inch Clumps (B. & B.)
4 to 6 Stems to a Clump

These might be called "Junior Specimens." The ball weighs about 5 pounds per plant, individually burlapped. They are 2 years older than Size 1. (F.O.B. N. Car.) Express runs about 20 cents per plant. You can expect some blooms the year after planting.

Small Rhododendron from Cuttings

Named Hardy Hybrids

Here are the first named Hybrids to be commercially offered from cuttings. It is a special process which results in a well-budded growth, quick and full of vitality. In our opinion a 1-year field grown plant makes as vigorous branched growth as a 1-year old graft! Also, it is own-root and should prove slightly hardier in the north than grafts. F.O.B. Maryland, dug with small ball of earth.

PRICES:

1-year 4 to 10 inch transplants
any five for \$3.75 (\$65.00 per 100)

VARIETIES:

Album grandiflorum
Blush-white, compact.
Caractacus
Compact, bright red.
Catawbiense album
Pure white, compact.
Catawbiense grandiflorum
Lavender.
Giganteum
Early, bright rose.
Ignatius Sargent
Light red. Lusty.
Roseum Elegans
Shapely, bushy, rose-pink.
Roseum Superbum
Similar. Clear pink.

Rhododendrons

EVERGREEN shrubs with fine foliage and gorgeous colors. Range in size from dwarfs to giants; bloom from May to July; all colors. Culture: acid, damp, loose soil. Light shade. Use manure in fall. Do not cultivate, but mulch with very loose leaves or, better, leaf mold.

— Safe to Plant in September and October. —

Carolina—Zone V. 8 to 10 ft. Fine native with light to deep pink bloom in May.

AZALEAS

SEE ALSO PREVIOUS PAGE
FOR SMALL NATIVE AZALEAS

The Kaempferi Azalea is compact, full of lovely salmon flowers.

THESE preposterously floriferous shrubs are gay, bright, and most satisfactory. Many of them stand dense or slight shade. With all, acid soil is needed—easily obtained by mulch of Oak leaves. Very smallest size best planted in spring. Other sizes easily and safely handled in autumn. Write for prices on varieties not listed.

Berrybush Yew

UPRIGHT JAPANESE YEW

TREE FORM Japanese Yew (*Taxus Cuspidata*) is usually called "Capitata". It is undoubtedly the best hedge plant for northeastern America. It responds to shearing with a dense even textured surface. It grows fairly rapidly the first few years and then slows down to a yearly growth which permits it to be kept easily around 6 to 8 feet high and 3 to 4 feet wide.

Japanese Yew (*taxus capitata*)

The most useful and popular evergreen in horticulture. Hardy to Zone II. A tree to (usually) 15 ft., but slowly increases to perhaps 40 ft. Stands damp, dry, sunny, shady, acid or ordinary garden conditions. Hence very easy to grow. Makes naturally a bushy root system and is doubtless the easiest evergreen to transplant. Rich dark green needles.

PRICES and SIZES:

	(10)	(100)	(1000)
★ 3 to 4 in. S....	\$ 6.50	\$ 40.00

Pendula Sargentii (Weeping)

Dwarf very spreading form. May become 15 ft. across and 6 ft. high. Drooping, graceful. Good dark green.

10 to 12 in.....	\$1.00	\$ 9.50	\$ 80.00
12 to 15 in.....	1.50	12.50	110.00

FLOWERING DECIDUOUS TREES

The rare Franklinia Flower

FRANKLINIA

Alatamaha

35 ft. Zone VI. Large white and yellow blooms fragrant from August to frost. Damp, acid, humus, blooms best in sun. Blooming starts on small plants. An extraordinary native. Leaves bright red in autumn—often while white flowers still open! Use plenty of water when planting.

	(Each)	(10)	(100)
★12 to 15 in. B&B.	\$1.25	\$ 9.50	\$ 90.00
18 to 24 in. B&B.	2.25	17.50	150.00
2½ to 3 ft. B&B.	3.00	26.50	225.00
3½ to 4 ft. B&B.	4.00	37.50	325.00

CRATAEGUS (Hawthorn)

Oxycantha (May Tree; English Haw)
20 ft. Zone V. Showy white flower in May, fragrant. Red autumn fruit. An excellent hedge.

	(Each)	(10)	(100)
★12 to 18 in. S....	\$ 10.00
4 to 5 ft.....	\$1.75	\$14.00	100.00

—splendens (Paul Scarlet)—Form with showy red flowers. Perhaps the most popular. Prefers sun, lime and heavy soil—even clay. In light soils, manure.

★12-in. 1-yr. grafts.	\$1.00	\$ 7.50	\$ 70.00
18 to 24 in.....	1.25	11.50	100.00
3 to 4 ft.....	2.50	22.00	150.00

CERCIS (Judas-tree)

Canadensis (Red Bud)
20 ft. Zone V. Rosy pink buds cover bare branches in April. Humus. Beautiful. A true companion for Native Dogwood. Good in woods or the shrubbery border. Sensational.

★12 to 18 in.....	\$ 4.00
★18 to 24 in.....	\$2.50	5.00
3 to 4 ft.....	\$1.00	9.00	50.00

FLOWERING CRABS

Flowering Crabs (Malus)

Zone II to V. Easy to grow. Some real bargains—your own assortment, 5 at 10 rate.

	(Each)	(10)	(100)
★2 to 3 ft.....	\$ 5.50	\$ 45.00
5 to 6 ft.....	1.75	13.50	100.00

Eleyi—20 ft. Profuse red bloom.

Floribunda—20 ft. Profuse white.

Sargenti—6 ft. spreading. White.

Scheideckeri—15 ft. Showy pink.

Spectabilis—20 ft. Fragrant blush.

LABURNUM (“Cytissus”)

Vossi (Hybrid Golden Chain)

30 ft. Zone V. Hardier and freer to bloom. A clearer yellow color. Suggest lime for best results. Bright green stems in winter.

	(Each)	(10)	(100)
2 to 3 ft.....	\$2.00	\$15.00
5 to 6 ft.....	4.50	40.00

SORBUS (Mountain-ash)

Aucuparia (European Rowan Tree)

30 ft. Zone III. Clusters of orange berries from July to September. Handsome small tree, grows anywhere.

★18 to 24 in.....	\$ 10.00
4 to 5 ft.....	\$1.00	\$ 7.00	55.00
6 to 8 ft.....	2.25	17.50	125.00

Laburnum Vossi 7 ft. specimen

White Flowering Dogwood (C. Florida)

THE MAGNOLIAS

Glaucia (Swamp Laurel) (Sweet Bay)
16 ft. Zone V. Moist. Semi-evergreen.
White, June to August. Fragrant.

	(Each)	(10)	(100)
12 to 18 in.....	\$ 3.00	\$ 22.00	
2 to 3 ft. XX...	\$2.00	10.00	95.00

Soulangeana (Saucer Magnolia)
20 ft. Zone V. Late April show of
large, pink blooms, white inside. Drain.

★15 to 18 in.—			
potted	\$1.50	\$12.00	\$100.00
2 to 3 ft. B&B.	3.50	30.00
5 to 6 ft. B&B.	7.00	60.00

Stellata (Water-Lily)

Here is a new shrubby Magnolia introduced by us. Blooms two weeks later than M. stellata hence should bloom well in Zone V. A truly heavy bloomer. The flowers are much fuller than M. stellata, and exquisitely fragrant! The pink petals are showier than M. stellata rosea. Growth is strong, very bushy.

	(Each)	(10)
1 year pot crown.....	\$1.50	\$12.50
15 to 18 in. B&B.....	3.00	25.00
2 to 2½ ft. B&B.....	6.75	60.00

FALL planting of these beautiful trees is safe and easy. Failures are seldom reported except in Oriental Magnolias—where we offer small sizes with earth ball only, such as experience shows move just as well as in Spring.

Flowering Dogwood (Cornus)

Profuse bloom in May, loads of red fruit in autumn. Zone IV. 25 ft. Acid, humus.

White Flowering Dogwood

4 to 5 ft.			
... ..	10.00	65.00	
5 to 6 ft.			
★2.75	19.50	120.00	

Pink Flowering Dogwood

Pink flowers. No real red is known, but the clear pink is a beautiful tone.

	(Each)	(10)	(100)
12 to 15 in. B&B.	\$.80	\$ 7.50	\$ 70.00
18 to 24 in. B&B.	1.50	12.50	100.00
24 to 30 in. B&B.	1.75	16.50	150.00
3 to 4 ft. B&B.	3.00	26.00	200.00
5 to 6 ft. B&B.	6.50	60.00	495.00

—**xanthocarpa**—The yellow berries are left on the tree by the birds, who gobble ordinary red berries all too quickly.

18 to 24 in. B&B.	\$1.50	\$12.50	\$100.00
-------------------	--------	---------	----------

Japanese Cherries

Prunus subhirtella pendula
Weeping Jap. Cherry

20 ft. Zone V. Delicate hanging branches loaded with pink in late April. Splendid, unusual specimen.

	(Each)	(10)
5-6 ft. stem,		
2 yr. heads...	\$3.50	\$30.00

Yoshino

The famous pink at Washington, D. C.

4 to 5 ft.....	\$2.25	\$17.50
5 to 6 ft.....	3.00	25.00

Lannesiana erecta

(Amanagawa) (Photo left.)

20 ft. Zone (V)VI. Erect narrow column covered with blush-pink double flowers late May. Unique and beautiful.

4 to 5 ft.....	\$2.50	\$22.00
----------------	--------	---------

HAMAMELIS

Mollis (Chinese Witch-hazel)

20 ft. Zone V. Best of all — Fragrant, more showy, yellow, red within. Blooms in February.

	(Each)	(10)
12 to 15 in..	\$1.00	\$ 9.50
2 to 3 ft..	2.50	22.50

SHADE TREE BARGAIN

A special small, healthy, nursery grown, transplanted size of sorts which can be relied upon to plant easily. An amazing value here!

RED MAPLE (*Acer rubrum*) and
SUGAR MAPLE (*Acer saccharum*)

These two maples in straight trees slightly branched.

	(10)	(100)
4 to 6 feet.....	\$5.50	\$45.00
6 to 8 feet.....	8.50	65.00

FLOWERING DOGWOOD (*Cornus*)

Fine young stock, beginning to branch and well rooted.

2 to 3 feet.....	\$ 6.00	\$40.00
4 to 6 feet.....	10.00	65.00
5 to 6 feet.....	19.50	120.00

ENGLISH OAK (*Quercus robur*)

WHITE OAK (*Quercus alba*)

These two Oaks are clean, straight, extra good roots.

5 to 6 feet.....	\$8.00	\$60.00
------------------	--------	---------

SHADE TREES

ACER

(Maples)

Dasycarpum (Silver Maple)

100 ft. Zone IV. Good quick shade. Leaves bright silver below.

★2 to 3 ft.....	\$ 5.00
4 to 5 ft. X.....	\$5.00 25.00

Palmatum (Japanese Maple)

—**atropurpureum** (Red-Leaved). 10 ft.
Wine-red leaves. Bushy, compact. Any sheltered soil.

	(Each)	(10)	(100)
12-in. 2-yr. grafts.	\$1.00	\$ 9.00	\$75.00
18-in. 3-yr. grafts.	1.75	16.00

Platanoides (Norway Maple)

60 ft. Zone IV. Dense, round-headed. Excellent for city streets. The most popular city tree. It is clean in trunk and bark and very shapely. Moreover easily grown. Bad in gardens, because of greedy roots.

★18 to 24 in. X....	\$ 11.00
★3 to 4 ft. X....	22.00
★5 to 6 ft. X....	\$ 6.00 45.00
8 to 10 ft.....	\$2.50	22.00	190.00

Rubrum (Red or Swamp Maple)

80 ft. Zone IV. Majestic drooping pyramid. Red flowers in April. Wet land, but tolerant of drainage. Not as greedy roots as most Maples.

★2 to 3 ft.....	\$ 9.00
★3 to 4 ft.....	\$2.50 12.00
6 to 8 ft.....	\$1.50	8.50	65.00

Saccharum (Sugar Maple)

100 ft. Zone III. Hates city air. Heavy dense, regular pyramid. Autumn color.

★2 to 3 ft.....	...	\$3.00	\$ 9.00
4 to 6 ft.....	...	5.50	45.00
6 to 8 ft.....	...	8.50	65.00

BIRCHES

(Betula)

Prefer spring planting, but possible in fall with extra care.

Alba laciniata

30 ft. Zone III. Drooping branches and lacy, drooping leaves. Superb on a lawn.

	(Each)	(10)	(100)
4 to 5 ft.....	\$2.00	\$15.00	\$120.00
6 to 8 ft.....	3.00	24.00	225.00

Papyrifera (Canoe or Paper Birch)

80 ft. Zone I. Whitest bark of all, but yellowish when young. Handsome.

★2 to 3 ft.....	\$ 9.00
4 to 6 ft.....	...	\$ 7.00	\$ 50.00
6 to 8 ft.....	\$2.50	10.00	75.00

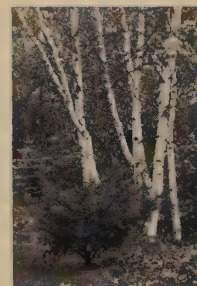

Populifolia (Gray Birch)

30 ft. Zone III. The common clump of "white" birch in woods. Poor soil.

★18 to 24 in.....	\$ 8.00
4 to 6 ft.....	...	\$ 7.00	50.00
6 to 8 ft.....	\$2.50	10.00	75.00

BIRCH CLUMPS

We suggest Paper or Gray Birch, 3 or 4 set close as possible in a common hole. This is best and cheapest way of getting clumps.

CASTANEA

(Chestnut)

Mollissima (Chinese Chestnut)

55 ft. Zone V. Bushy tree, practically immune to blight. Good nuts. See also page 21. No majestic giant like our vanished native, but sweet nuts, not very different.

	(Each)	(10)	(100)
★12 to 15 in.....	\$22.00
2 to 3 ft. X....	...	\$ 5.00	47.50
3 to 5 ft. X....	...	10.00	70.00

Generally Speaking as Safe or Safer in Fall as in Spring

FAGUS

(Beech)

Purpurea (Purple Beech)

40 ft. Zone V. Majestic spreading specimen with rich, dark leaves dense to the ground. (See also page 6.)

	(Each)	(10)	(100)
★15 to 18 in. B&B.	\$1.50	\$12.50
★18 to 24 in. B&B.	1.75	16.50
★ 2 to 2½ ft. B&B	2.50	22.50

JUGLANS

(Walnut)

Nigra (Black Walnut) (See also p. 21.)
120 ft. Zone IV. Rich, moist. Majestic, with good timber, handsome leaf and delicious nuts. The following are seedlings:—

	(10)	(100)
★12 to 18 in.....	\$ 9.00	
★ 2 to 3 ft.....	\$2.50	9.00
5 to 6 ft. X.....	9.00	75.00

LIQUIDAMBER

Styraciflua (Sweet Gum)

90 ft. Zone V. Leaf like maple and ablaze in autumn. Damp, heavy soil.

★18 to 24 in.....	\$ 2.75	\$ 8.00
6 to 8 ft.....	\$2.75	20.00 195.00

Liriodendron (Prefer Spring)

Tulipifera (Tulip Tree)

150 ft. Zone V. Majestic giant, with yellowish tulips in June. Humus.

★18 to 24 in.....	\$ 5.50	
★ 2 to 3 ft.....	\$ 2.00	7.00
★ 3 to 4 ft. X.....	7.50	60.00
★ 4 to 5 ft. X.....	9.00	70.00

Condorcet—Blue, double: CD.

Geo. Billair—Red-purple, dbl.: AC.

Hugo Koster—Single lilac: ACD.

Lamarck—Pink, double: CD.

Lamartine—Mauve, single: ACD.

Ludwig Spaeth—Purple, single: ACD.

SHRUBS

Viburnum Burkwoodi

A hybrid introduced from England a few years ago. 5 feet, Zone V. Lovers of the May-flower *Viburnum* (*V. Carlesii*) will find here a flower almost identical, more freely produced on a more shapely bush—just as fragrant and way bluish. But the leaves are evergreen in Zone VI and south! Will in time replace *Carlesii*.

	(Each)	(10)	(100)
15 to 18 in. B&B..	\$2.50	\$22.50	\$200.00
★4-in. pots	1.50	12.50	110.00

Daphne Mezereum

3 ft. Upright. Zone IV. In April lilac-red masses of bloom. Sun, lime. Shade, south of Zone V.

15 to 18 in.....	\$1.00	\$ 7.00	\$ 55.00
2 to 2½ ft....	1.50	14.00	95.00

Philadelphus Virginal

8 ft. Zone V. Double, fragrant, translucent white blooms load the bush in June. Then more sparsely through summer.

★12 to 18 in.....	\$14.00
3 to 4 ft.....	\$.80	\$7.00	65.00

Mme. Lemoine—Cream, double: AC.

Hardy Grafted Nut Trees

Really bear nuts for food and Profit—here in the North!

Enjoy the remarkable new hybrid nut trees, experimenters have been working on for years! Hardy types of both English Walnuts and Pecans! Delicious Black Walnuts with easily opened shells. These trees, tops partially waxed, withstand very well transplanting in Autumn. The risk is increased perhaps 5% as compared to spring, but the quicker growth next year more than makes up for this. Mulch with salt hay, remove it in April.

Stabler Walnut

Thomas Walnut

Wiltz-Mayette Walnut

BLIGHT-RESISTANT CHESTNUTS

Chinese Chestnut (*Castanea mollissima*). Similar to the dying American, of fine flavor, and sweet. It is inured to the Chestnut blight. Lives and bears Zone V. **BARGAINS:—**

Seedlings, 2-3 feet (transplanted).....25 for \$15.00
3 to 5 feet.....25 for \$22.50

—**Grafted Trees.** Better nut-bearing. Bear as soon as apples. Varieties Carr, Zimmerman, Connecticut Yankee.

	(Each)	(10)		(Each)	(10)
4 to 5 feet....	\$2.00	\$18.50	6 to 7 feet....	\$2.75	\$26.25
5 to 6 feet....	2.25	21.00	7 to 8 feet....	3.25	31.50

Japanese Chestnut—Very like the Chinese. Even quicker to bear, but lower quality. Larger. (Each) (10) (100)
4 to 5 feet.....\$1.75 \$13.00 \$105.00
6 to 8 feet.....2.85 24.50 200.00

NOTE: Nut trees have large root-systems. They must be pruned off. The tops, pruned to make up for the loss of roots. The first two years mulch well with hay or straw and water if drought comes. Keep all side buds from developing into useless low branches. Branches should not start below 7 feet. Do not plant deeper than they were in nursery.

BLACK WALNUTS—Zone IV

One of our most beautiful native trees, growing well in any fertile well drained soil. The grafted sorts bear their first nuts commonly in the third to fifth year.

Stabler meat falls out easily in halves or one piece and is of a rich mellow flavor. A fine spreading specimen.

Thomas is a rapid-growing tree. The meat is attractive and tasty, but does not crack as easily as the Stabler.

	(Each)	(10)
3 to 4 feet..	\$2.00	\$18.50
4 to 5 feet..	2.25	21.00
6 to 7 feet..	\$2.75	\$26.25
7 to 8 feet..	3.75	36.75

ENGLISH WALNUT—Zone V

Grafted on Black Walnut roots, the wood ripens earlier in fall; hence, can stand much colder climates.

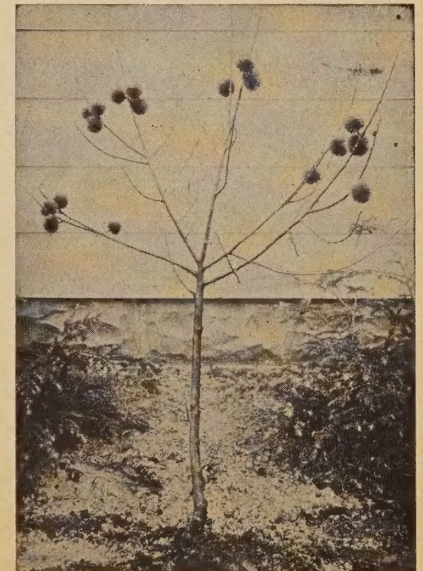

3 to 4 feet.....	\$2.50 each
5 to 6 feet.....	3.00 each

CHESTNUTS

BEAR YOUNG!

The Chinese and Japanese types have nuts in 2nd and 3rd years. Photo at right is a plant 41 inches tall (3-4 ft.) taken autumn 1939. There are 18 burs, each containing 3 nuts. 54 chestnuts on a baby tree!

Packing charges included in these prices.

FRUIT TREES for AUTUMN

THESE hardy, reliable, northern grown fruits can be planted in Oct.-Nov., almost a year gained over next Spring and identical success. Very easily handled. Special prices on large quantities.

APPLES—Zone III

(Each) (10)

2 year $\frac{1}{2}$ in. (5 ft.)....\$.80 \$6.00
Ask for special prices for 100 or more.

SUMMER VARIETIES

Early Harvest—Yellow, medium size.
August. Zone IV.
Red Astrachan—Red, large. August.
Zone III.
Early McIntosh—Good new sort. Zone III.
Yellow Transparent—Pale yellow, good.
August. Zone III. Needs heavy pruning.

AUTUMN APPLES

Duchess—Yellow, streaked red. Zone III.
Wealthy—Deep red, white flesh. Zone III.
Prune and fertilizer needed.

WINTER VARIETIES

Baldwin—Red, large. Zone V.
Cortland—A beautiful red; larger than McIntosh and ripening a month later. Zone III.
Delicious—Large, red. Zone III.
King (Tompkins)—Crimson, large. Good fruit; poor tree. Zone IV.
McIntosh—One of the best red; November, February. Zone III.
Northern Spy—Yellow and red; large. Zone IV.
Rhode Island Greening—Greenish yellow; large. Heavy soil. Zone IV.
Red Rome Beauty—Fine old kind. Zone V.

BEARING SIZE DWARF FRUITS !

A few trees of good sorts, on dwarf stock. All have borne some fruit and should bear next year. Shapely and bushy. Apples and pears only.

5-years old\$ 8.75 each
8-years old 11.00 each
10-years old 12.75 each

CHERRIES—Zone IV-V

(Each) (10)

2-yr. $\frac{1}{2}$ in.....\$1.00 \$9.00

SWEET (Prunus avium) Zone V

Black Tartarian—Black. Early.

Gov. Wood—Red on white. Early.

Yellow Spanish—Early. Yellow.

SOUR (Prunus cerasus) Zone IV

Early Richmond—Red. Early.

Montmorency—Red. Mid-season.

English Morello—Late. Dark red.

FALL BEARING (New) (Patent 94)

Sweet September—Red, large, tasty.

Bears Sept. to frost.

5 to 6 ft.....\$2.50 each

PEARS—Zone V

(Pyrus communis)

Unlike other fruits, pears should not be allowed to ripen on the tree, but should be picked green and stored in a dark, cool place where they can ripen perfectly.

(Each) (10)

2-yr. (5 ft.).....\$.80 \$7.00

Anjou—Winter. Buttery and juicy.

Bartlett—Summer. Yellow. Melting, fragrant.

Clapp's Favorite—Summer. Good, but blights.

Seckel—Fall. Small but good.

Sheldon—Fall. White flesh. High quality.

Beurre Bosc—Late. Bronze. Delicious.

Novelty Fruits

HIGHBUSH CRANBERRIES

(*Viburnum Americanum*) Zone I.

Large fruited, heavy-yielding types of the American High Bush Cranberry, selected by the U. S. Dept. of Agriculture.

Andrews—Late; bushes vigorous, clusters large, erect; berries very large, very high in nectin; ripens in September.

Wentworth—Earliest, ready to be used for jelly early in August; clusters large, drooping.

	(Each)	(10)	(100)
18 to 24 in.....	\$.90	\$7.50	\$65.00
2 to 3 ft.....	1.25	10.00	95.00

NATIVE AMERICANS

BUFFALO BERRY

(*Shepherdia argentia*) Zone I.

Fruit scarlet red, sprightly acid, and agreeable flavor, makes an excellent sauce or jelly served with meats. Showy throughout the closing months of the year.

	(Each)	(10)	(100)
18 to 24 in.....

ADAMS ELDERBERRY

(*Sambucus Canadensis*) Zone IV.

The large berries and extra fruit clusters are a decided improvement over the common kinds. Makes delicious pies, jam and wine.

2 to 3 ft.....	...	\$3.50	\$25.00
3 to 4 ft.....	\$.90	4.00	30.00

New American Mulberry

Ever-bearing, from the middle of June until the middle of September. Large, refreshing berries that do not have the mawkish sweetness of most varieties.

4-5 ft. trees.....\$1.75 each

The Hansen Bush Cherry

(*Prunus pumila*, hybrid) Zone IV.

5 foot shrub, branches completely covered with dark red cherries the size of plums. Masses of fragrant white blooms in May. Silvery leaves turn gold and flame in autumn. Set plants 6 ft. apart for ample room or 2 ft. apart in hedge.

	(Each)	(10)	(100)
2 to 3 ft.....	...	\$5.00	\$37.50
4 to 5 ft.....	\$1.10	9.00	65.00

Persimmon (*Asimina triloba*)

Early Golden—and other grafted early-fruited American varieties bear early enough in fall to be useful in Zone VI. Dried, the fruit resembles figs, but not so rich and cloying.

5 to 6 ft.....\$2.75 each

CARE NEEDED FOR ESPALIERS

Ten to twelve feet is the maximum height to which true dwarf Espaliers will grow. Little pruning is needed—beyond keeping the small new spurs from reaching more than six inches outside of the main stems. When a spur has borne it will continue to bear. Pick the stem with the fruit.

Look at this bush !

Dwarf (about 4 to 6 feet high) and neat with clean bark and leaves.

Disease-free—no spraying !

A bush should produce 2 quarts (@ 25c wholesale) its 6th year and by the 8th or 9th about \$1.00 a year in berries. Planted 6 ft. apart (1,200 to the acre) you could safely expect on good land a gross income of \$1,200 a year, selling wholesale. Picking costs are high, but hiring all work done, a net profit of \$600 an acre is actually being made on these.

Huge, Hybrid Blueberries

Here's Beauty that Pays a Profit !

Really beautiful as specimens or in hedges. Suited for use in small quantities in the small garden. A 100-foot hedge will give you about \$25. worth of berries a year! (Spaced 18 inches). These were developed by the late Dr. Frederick Coville of the U. S. Dept. of Agriculture.

VARIETIES AVAILABLE and PRICES

	(Each)	(10)	(100)
2 year (6 to 12 in.).	\$.85	\$ 6.00	\$ 47.50

Rubel. Vigorous. Large blue berries in July.

Rancocas. Slender, upright bush. Berries larger than Rubel, a few days earlier.

Concord. A large bush with huge berries of fine flavor. Early July.

Jersey. The largest bush, also the largest berries. Vigorous. Light blue.

Cabot. The earliest. Board, low bush. Delicious berries.

Look at these berries !

Photograph is life-size. Light blue color.

Needs only an acid soil

They need a moderate supply of soil-moisture, and good drainage so that the roots Blueberries require an acid soil containing peat or other rotted vegetable matter. can get air during the growing season.

FEED YOUR PLANTS—HEALTHIER, HARDIER AND MORE FLOWERS

"MULCHNUR"—Our new introduction—all organic—for spreading on lawns, gardens, etc. It contains peatmoss, manure, and enough tobacco dust to discourage grubs, cutworms, moles, mice, etc. Fertilizing value is high:—Nit. 2.8%, Phos. 1.5%, Pot. 1%. Comes clean, dry, shredded, ready to use.

Lawns: Use 1 pound to 10 square feet.

Beds, gardens, etc.: 1 pound to 2½ square feet.

1. Protects against drought and conditions soil.
2. Very high fertilizer value—all natural soil.
3. Prevents annoying insect damage to roots.

1 bag (35 lbs.) covers 350 ft. lawn.....\$1.00

SHREDDED COW MANURE

Well rotted, can be applied as a direct mulch. Moisture 25 to 40%. Sold in 100 lb. bags—\$1.00 each. (\$1. covers 300 sq. feet.) Excellent soil conditioner.

SHREDDED LEAF MOLD

A thin layer from the top of an oak forest, shredded and bagged. Very loose yet firm, goes a long way. Maintains an acid soil, wonderful for Azalea, Rhododendron, Blueberries, Holly, Dogwood, etc. Large 3 bushel bag. \$1.00.
